NOBLE ELECTION CASE.

Fiscal Arguments by Counsel to be Heard To-morrow.
The Noble election case was continued yesterday afternoon, thirty-nine petitioners being put on the stand to testify as to their qualifications. J. A. Hassinger, clerk in the Interior office, testified as to having received the returns from the Marshal.

A heated controversy ensued at this point. H. Waterhouse testified that on filing the petition for his standing as Noble, he had appeared in Hawaiian also. Messrs. J. A. Hassinger and J. H. Brown denied the statement, and quite a ripple of excitement ensued. The members elect—Hons. J. N. S. Williams, Juno, Ena, and A. P. Peterson—being present in Court, testified as to having received their certificates of election from the Marshal. The petitioners rested this forenoon.

Attorney-General W. A. Whiting moved to offer in evidence a list of fourteen names of signers of the petition to annul the Noble election, who, he was prepared to prove, had not paid their taxes. Counsel for the petitioners demurred, the Court sustaining the objection. Counsel held that when a man had voted it did not matter whether he had paid his taxes or not.

The closing argument by counsel will be heard to-morrow morning at 10 o'clock.

FOR NERVOUS DEBILITY
Use **Morford's Acid Phosphate.**
Dr. H. T. TUNER, Kason, Minn., says: "I have found it very beneficial in nervous debility from any cause, and for indigestion."

LOCAL AND GENERAL NEWS.

Mr. J. J. Williams, photographer, has again a complete supply of plates.
SEVEN tourists were passengers on the W. G. Hall for the Volcano to-day.
THE Sons of St. George are intending an open lodge festival on April 25th.

THERE is nothing settled yet as to the disposition of the steamer Zealandia.

THE BULLETIN is indebted to Purser Laurie J. Ryan for late San Francisco papers.

J. F. MORGAN will hold a sale of fancy Chinese goods to-morrow at 10 o'clock.

THE San Francisco papers went off like hot cakes to-day on account of the Behring Sea news.

ALMOST all the cabin passengers by the steamer Australia have registered at the Hawaiian Hotel.

THE steamer W. G. Hall's time of sailing was delayed for an hour this morning, awaiting the foreign mail.

MRS. THOS. K. JAMES, wife of Steward James of the S. S. Australia, was a passenger by that steamer this morning.

DIAMOND HEAD, 12 m.—Weather hazy, wind, light northeast. Whalers California, Triton and Barstow lying off and on.

JAMES COLLINS tenders his sincere thanks to the gentlemen of Honolulu who kindly contributed a purse of \$40 through Capt. J. Degreaves.

THE schooner Glendale will load lumber at Humboldt for this port. Chas. Johnson, formerly first mate, has been promoted to captain.

CHIEF-JUSTICE and Mrs. Judd and Henry Smith have left for Waiohinu, Kau, Hawaii, where His Honor is to hear the petition for a new election.

THE Kawaihewa concert for the benefit of the running expenses of the Seminary will not be postponed, but will take place on Saturday, March 26th.

MRS. BAKER, wife of Rev. E. P. Baker of Hilo, was a passenger by the Australia to-day. Mrs. Baker will return to her home on the steamer Kilauea next trip.

THE S. S. City of Sydney was towed into Punta Arenas March 4th, with her shaft broken. It repairs cannot be effected at that place, she will have to be towed to San Francisco, a distance of 3000 miles.

THE small drums of the band will play a tattoo just before the lighting of the band stand at the Hotel this evening, when, at a signal from Col. Macfarlane, the instantaneous illumination will take place.

THE ocean race between the crack vessels, the bark Albert and barkentine W. H. Dimond, from Honolulu to San Francisco, resulted in a tie, both making the passage in twenty-one days. Not a quick trip!

THE P. M. S. S. City of Peking started on March 10th from San Francisco to Santa Barbara on a speed trip with lengthened smoke-stack and forced draught, to ascertain if she complies with the new mail contract provisions. Her trial proved satisfactory.

PEOPLE would do well to be at the Hotel this evening in time to see the instantaneous lighting of the new band stand. The arrangement of the lamps was designed by Col. Macfarlane and ably carried out by Messrs. Cassidy and Taylor.

IT is as near as possible a reproduction of the style of lighting in the band stand at the Crystal Palace, London.

CAPTAIN Joseph Spencer of the whaling bark Emily F. Herriman arrived on the Australia to join his vessel at this port. Capt. Spencer is a brother of His Excellency the Minister of the Interior, and there was a cordial greeting between the two brothers as soon as the steamer came up to her dock. It is several years since the captain visited Honolulu, and no doubt he will find many changes.

THE Hotel is again full to overflowing, nearly fifty guests having registered by the Australia this morning. The management is to be congratulated on the increase of travel and business which promises to justify the outlay for improvements and attractions at the Hotel for the delight and comfort of tourists to these islands. It may be mentioned here that the new Volcano House is doing much to attract tourist travel at this time.

REV. W. P. Kirby will return from the Volcano by the Kilauea to-morrow morning. He will deliver English discourses at the Roman Catholic Cathedral on Thursday, Friday and Saturday evenings, beginning at 7 o'clock. The music will be by the Brothers of St. Louis College, which is saying that it will be of a fine order. Mrs. Bowler and Miss Nolte will sing on Friday evening. These discourses afford a fine opportunity for English-speaking Catholics to hear a recognized pulpit orator.

THE NEW LINE.

The Astorian of Astoria, Oregon, March 3, had the following item:

The steamer Batavia which arrived at Hongkong February 18, will sail for this city, via Honolulu, next Tuesday. The Romulus leaves Hongkong March 30. She has been chartered by Upton for this trip only and will not return to China. The Zambesi is due in this city between the 15th and 20th of this month.

S. S. AUSTRALIA.

Steamer Australia, H. C. Houdlette, Commander, sailed from San Francisco, March 15, at 2 p. m., with 53 cabin and 11 steerage passengers and 40 bags of mails. Experienced remarkably fine weather throughout the voyage; arrived at Honolulu at 9:30 a. m. March 22.

LATEST FOREIGN NEWS.

(San Francisco, March 15, per S. S. Australia.)

TROUBLE BREWING.

Between Great Britain and the United States on the Sealing Question.

It has transpired in Washington that Lord Salisbury was preparing to submit a proposition to the American Government on the Behring Sea question with conditions that were only mentioned in Washington to be condemned. It is a proposition for the renewal of the *modus vivendi* under which both countries have been protecting the seals, providing that the United States will pay all the damages that may accrue to Canadians by reason of their extensive preparations to seal and their consequent inability to carry out their plans.

Secretary Tracy on being asked for his opinion of the proposition answered: "Think of it? Why, there's nothing to think about. Such a proposition carries with it as much reason as would a demand from a burglar for damages because he had intended to burglarize your house and had been prevented from doing so because he had been arrested and locked up."

The Secretary said the President thought as he did. He also said Secretary Blaine is a very sick man, and the news of the Behring Sea matter is kept strictly from him.

Erasmus Wiman, the financier, who is famous for his advocacy of reciprocity with Canada, talks seriously of war between the two nations over the dispute.

The day after the British Minister at Washington had notified the State Department that the *modus vivendi* would not be renewed, but before that fact had become public, the London Times contained an editorial saying, in reference to the arbitration treaty, "It is understood that as the award cannot be given before the opening of the next sealing season, it will be necessary to renew the *modus vivendi* for another year."

A report that the cruiser Baltimore and other naval vessels had been secretly ordered to Behring Sea was emphatically contradicted by Secretary Tracy.

A message from the President in reply to a resolution asking information as to the effect of pelagic sealing was received by the Senate on the 14th.

The President sent extracts from the official reports of the Behring Sea Commissioners, showing that, contrary to Lord Salisbury's statement, the British Commissioners had conceded that the seals had diminished in number by the hand of man, which, of course, meant largely through the acts of poachers in killing seals at sea.

A motion by Sherman to refer the message to the Committee on Foreign Relations was voted down, as the Senate wished to hear the inclosures read.

When the matter had been read in full a debate ensued very similar to one held the previous week. A point of difference was to be seen in the strength shown by the gentlemen favorable to the protection of the claimed rights of the United States in the Behring Sea by all the resources of the Government pending arbitration. Short speeches were made by Sherman, Butler and Morgan of the Committee on Foreign Relations, and by Platt, White and others. The papers were then referred to the Committee on Foreign Relations.

While no formal action was taken, it was understood among a large majority of Senators to-day that under no circumstances would they ratify the agreement to arbitrate unless England agreed to revive the *modus vivendi*. It was not intended to stand much delay, either, and, if necessary, the Senate will formulate its own terms of a *modus vivendi* and forward them to Salisbury with a respectful request for an immediate agreement.

There is a rumor in Washington that the President is seriously contemplating the plan of sending Mr. Phelps to Europe as a special envoy. Exactly why he will be sent, if he is sent, is not known. At the conclusion of an interview with the President Mr. Phelps went to the Senate and circulated among the Democratic Senators, urging them to stand by the Administration in this matter, and they all promised to do so, providing it was shown that there were no politics in it.

UNITED STATES.

Senator Hill of New York is on a political tour through the South and is well received by the populace.

Ex-Secretary Bayard has written an open letter to Democrats, taking strong ground against free coinage of silver.

Gen. Bragg, author of the phrase regarding Cleveland, "We love him for the enemies he has made," has received from ex-President Cleveland a letter in response to his earnest request that he should make a public avowal of his position regarding the approaching Democratic national convention. Cleveland says in the letter: "My experience in the office of President so impressed me with the solemnity of the trust and its awful responsibilities that I cannot bring myself to regard the candidacy for the place as something to be won by personal strife and active self-assertion." He also says that the people themselves ought to make the nominations as directly as is consistent with open, fair and full party organization and methods.

The project for a deep water channel through the connecting waters of the great lakes has practically received the approval of a majority of the House Committee on Rivers and Harbors.

The House Committee on Reform in the Civil Service has agreed to report favorably a bill to exclude political influence in the employment of laborers under the authority of the United States.

General Grant, Assistant Secretary of War, is ill and not able to leave his bed. Overwork is the cause.

A New York despatch of the 14th says: The Stock Exchange to-day placed in the unlisted department \$25,000,000 of new sugar stock which was authorized at the last meeting of stockholders of the sugar trust. This is taken as confirmation of the stories that the trust has absorbed the competing refineries.

SPORTING NEWS.

A fight is being arranged between James Corbett and John L. Sullivan. The match was to have been clinched on March 15th. Not a few think this will be Sullivan's Waterloo.

A message has been received in San Francisco from Joe. Goddard, the Barrier Champion of Australia, that he will embark for that city on the R. M. S. Mariposa on April 18th.

Ashinger won the six-day bicycle race in New York on March 12, finishing two feet ahead of Lamb. Following is the score: Ashinger, 1022 miles 7 laps; Lamb, 1022 miles 7 laps; Martin, 1022 miles 6 laps; Reading, 1022 miles 5 laps; Lumsden, 954 miles 2 laps; Schock, 940 miles 1 lap; Stage, 900 miles.

MISCELLANEOUS.

The sporadic disturbances which characterized the recent campaign in Japan ripened on election day into riot, assault and assassination. When the polls had closed it was found that the battle of the ballots had been hot and close, but that the actual physical conflicts had been far more serious. Estimated from the imperfect sources of information which mark the slow going East, the loss of life at the elections and during the few days before was not less than twenty, and 140 had been seriously wounded, to say nothing of broken heads, cuts and bruises sustained by the more fortunate combatants.

KAMALE STORE.

A new fancy goods and ladies' furnishing store will be opened in McInerney Block to-morrow morning by Mrs. G. King. This afternoon a BULLETIN reporter was privileged to peep into the as yet unopened interior.

The sight presented is beautiful. An impression is at once made of an Oriental bazaar. Mrs. G. E. Boardman's artistic hands, so often employed in decorative work for fairs, etc., aided those of the proprietress in arranging the rich and pretty goods.

The draping of curtain material is exquisite. There are in stock, effectively displayed, all kinds of fancy work, children's underwear, wools of every color and kind, art linens, ponpons, slippers. Among the novelties are bunches of wheat tied with ribbon. In one window is an assortment of elegant parasols, in another children's hats and flowers.

But the ladies must attend the opening and see for themselves. A man cannot describe such wares, even if he has to pay for them sometimes.

OPIUM SMOKERS FINED.

Two Chinamen, Ah Lum and Foo Nen, were arrested last night about 7 o'clock on the Tong Hung Society premises on the Ewa side of the Kaimakapili Church for smoking opium. The officers headed by Kealakai raided the premises when the Chinamen had just settled down for a smoke. A native gave the information to the Police Station which resulted in the capture. In the Police Court this morning both were found guilty of opium smoking and were sentenced to pay fines of \$50 and \$150 respectively.

SUNBURN relieved at once by Cucumbers Tonic. Benson, Smith & Co., Agents.

In the art of photography it is a well known fact that the sensitized plates made for use, as negatives, are subject to deterioration by climatic effects. The exact necessary process, to counteract these effects, is a matter of expert and careful study and requires the production of specially prepared plates, to obtain the best results. Mr. J. J. Williams, the popular photographer, has had made, to his order, and is continually importing, sensitized plates prepared expressly for use in Honolulu, and, as he is the sole importer of such material, the work produced by him is necessarily the best obtainable in the confines of the Paradise of the Pacific.

Are You Ever Thirsty

These warm days and want something besides water to quench your thirst? If so, we can offer you a package that will make five gallons of the most delicious Root Beer. This preparation is made directly from fresh barks and roots. It comes in liquid form, requires no boiling or straining. Drink freely it keeps the system in a healthy condition. It is not intoxicating.

Have you ever heard of the Seven Southernland Sisters who are celebrated for their long tresses of beautiful hair. They say this unusual growth was induced by using a hair tonic which they discovered and are now selling to those less fortunate. They also found trouble with dandruff, as we all do more or less. Their Scalp Cleaner removes all such deleterious matter. We've these and Hall's, Mrs. Allen's, Barry's Tricopherous, Carboline,
